Chill Airways – Terms of Use

---

1. Agreement to Terms

By accessing or using any part of the Chill Airways platform — including our website, DAO interfaces, NFT products, token ecosystems ($AUTOPILOT, $JET), or affiliated applications — you agree to be legally bound by these Terms of Use ("Terms"). If you do not accept these Terms, do not use our services.

These Terms apply regardless of whether you are accessing the platform through a browser, wallet connection, mobile interface, or third-party integration.

---

2. Legal Entity

Chill Airways is operated and governed by a legally registered **Foundation in Abu Dhabi, United Arab Emirates**. This Foundation oversees platform operations, manages treasury assets, and supervises Special Purpose Vehicles (SPVs) associated with individual aircraft.

All on-chain contracts, DAO governance tooling, and associated utility tokens are integrated with and managed under this legal structure.

---

3. Eligibility

To use the Chill Airways platform, you must:

- Be at least 18 years old
- Have the legal capacity to enter into contracts under the laws of your jurisdiction
- Not be a citizen or resident of any jurisdiction subject to sanctions or restrictions
- Not use our services for illegal purposes, including but not limited to money laundering, fraud, or terrorist financing

Participation in SPVs (e.g., JET Tokens) may require **KYC/AML verification**, and access may be restricted based on local regulations.

---

4. Wallet Access & Interaction

You must connect a compatible blockchain wallet (e.g., MetaMask, WalletConnect) to interact with DAO tools, purchase NFTs, or engage in governance. You are solely responsible for securing your wallet and private keys.

We do not store wallet credentials or seed phrases and cannot recover lost access.

---

5. Token Usage

Chill Airways issues multiple utility tokens, including but not limited to:

- **$AUTOPILOT**: The primary governance token
- **$JETx** (e.g., JET1, JET2): Utility tokens tied to specific aircraft SPVs
- **NFT Boarding Passes**: Non-transferable or tiered-access collectibles

These tokens do not represent equity, debt, or ownership unless explicitly stated in legal SPV documentation. Token access or utility may vary by jurisdiction and is **not guaranteed to be available in all countries**.

---

6. DAO Governance & Proposals

Participation in governance via DAO proposals, staking, or voting requires holding eligible tokens. DAO decisions may affect token mechanics, treasury usage, branding, or aircraft operations (subject to legal oversight).

Proposal outcomes are executed via Gnosis Multisig wallets and may trigger smart contract changes. By participating, you acknowledge the decentralized and experimental nature of this governance model.

---

7. SPVs & Legal Participation

Some aircraft-related functions (e.g., JET1) are structured through SPVs — legally distinct entities formed under the oversight of the Chill Airways Foundation.

Participation in an SPV:

- May require identity verification and regulatory compliance
- Does not guarantee revenue sharing or returns

- Is governed by separate legal documentation and disclaimers

Holding $AUTOPILOT does **not** grant ownership or rights in any SPV unless otherwise disclosed.

---

8. Intellectual Property

All content on the Chill Airways platform — including branding, visuals, logos, smart contract code (unless open-sourced), and documentation — is the property of Chill Airways or its contributors and is protected by copyright and trademark law.

You may not duplicate, modify, or commercialize any part of the platform without prior written permission.

---

9. Risk Disclosure

By using our services, you acknowledge the following risks:

- Volatility of token values
- Potential loss of access to wallets or NFTs
- Legal or regulatory uncertainty in your jurisdiction
- No guaranteed access to SPV features or token mechanics
- Smart contract vulnerabilities despite audits

Chill Airways assumes no liability for financial loss, misconfiguration, or user error. **Do your own research (DYOR).**

---

10. Disclaimers

The Chill Airways platform and associated assets are provided **“as is” and “as available”**. We do not guarantee uptime, security, or uninterrupted functionality of any feature, token, or DAO tool.

We reserve the right to modify, suspend, or terminate access to the platform at any time without liability.

---

11. Limitation of Liability

To the fullest extent permitted by law, Chill Airways and its contributors shall not be liable for:

- Indirect, incidental, or consequential damages
- Loss of tokens, NFTs, or access due to third-party platforms
- Legal restrictions in your jurisdiction
- Platform downtime or technical errors

---

12. Jurisdiction & Governing Law

These Terms shall be governed by and interpreted in accordance with the laws of the **Abu Dhabi Global Market (ADGM)** or equivalent UAE jurisdiction. Disputes shall be subject to the exclusive jurisdiction of competent UAE courts or arbitration frameworks applicable to ADGM entities.

---

13. Amendments

We may update these Terms at any time. Material changes will be announced via our website or DAO governance channels. Continued use of the platform constitutes acceptance of updated Terms.

---
